Reports that the Rev. M. Devasaint of Bangalore has presented the Garden with a pear yellow and white Cucumber of a superior variety of Madras silkworm and suggests their distribution through the different silk growing districts in Mysore

He may be requested to send them to the Residency at Bangalore by messenger, notice

Lal Bagh Bangalore
May 6th 1865.

To
Capt. Campbell
Q. Secretary to the
Commissioner of Mysore

Sir

I have the honor to request the favor of your bringing to the notice of the Commissioner the following subject for his Consideration and orders.

2 The Rev. M. Dessaint of Bangalore presented to the garden, about two months ago, a few Cocoons (yellow & white) of a superior variety of Italian silk worm, imported from Italy to Pondicherry, and successfully reared at that place.

3 These Cocoons I have shown to natives who make them living by rearing silk worms, and they report the silk to be of a superior quality to that produced by the worms which they rear, and are also desirous to obtain a few Cocoons to breed from.

4 I have reared two broods from the Cocoons, and have at present some thousands of worms most of which will have begun to spin in about a week hence.

5. When these Cocoons are spun I would respectfully

suggest that they be distributed through the different silk growing districts in Mysore so that as much benefit as possible may be derived from their introduction.

If the Commissioners should think it advisable to distribute these it will then be necessary to determine to whom and to what places they should be sent - and in what way - whether by Bangy (enclosed in small thin deal or pasteboard boxes) or by messenger.

They should require to be at their destination in a week after the Cocoons are spun, for, in about that time the Lac moths will have begun to pierce the Cocoons and lay their eggs.

I may mention that we received along with the Cocoons upwards of 100 'slools' of a particular variety of Mulberry, but these are not yet far enough advanced to enable me to determine whether the variety be different from some of those cultivated here; should it prove so, Cuttings can be afterwards furnished to those who may desire them.

Waiting for the orders of the Commissioners relative to the disposal of these Cocoons

I have the honor to be

Sir

Your most obedient Servant

A. A. Black

~~Collector of Khandeish~~

To

Bowring Esquire, C.S.I.

Commissioner of Mysore

Sir,

You are perhaps aware that an attempt is being made to revive the culture of silk in the Bombay Presidency. An agent was deputed to Mysore to endeavour to procure seed from the Filature of Messrs DeVielej at Bingara but he found that the whole crop had been exterminated by disease and he very judiciously declined to bring away any seed that might propogate the disease. I shall feel obliged if you will inform me if you, or the Madras Government, have taken any measures to procure fresh seed.

from Japan or Europe and if there is
any prospect of my being able to procure any
seed from Mysore during this season.

I have the honor to be

Sir

Your most Obedient Servant
